Dear Sir,
Thanks for your information. I have read completely my article. I do not change the layout, but I have found a little to correct, and I mark it red .Page 1(the introduction): there is a full stop (.)after the word perception before (Liang 2011). Please remove the full stop (.) only, and page 5 (Discussion) there is a full stop (.) after the word benar, please remove the full stop (.) and add a single quotation mark (') after the word benar. The rest of the article is fine. Thank you for your attention I hope this information is helpful. please inform me if everything is alright.
Yours sincerely,
Acep.U.R
