to me

Dear Editor-in-chief,

I submitted the original manuscript entitled,

'The quality of destination and tourist satisfaction: can the attribute of destination mediate it?' by Sumaryadi Sumaryadi; Ratih Hurriyati; Lili Adi Wibowo; Vanessa Gaffar

submitted to The Journal of Asian Finance, Economics and Business for a form of

(choose one: Regular Paper, Review Paper, or Letters to the Editor).

[Write down your own Rationale. An example follows:]

'This present research tried to explore the empirical evidence about the relation between quality of destination and Islamic attribute of destination on tourist satisfaction. We used quantitative approach in conducting the research and used structural equation modeling in examining the hypotheses. This research was conducted on tourists who were visiting West Java Province, Indonesia. The results showed that there was a positive and significant effect between the quality of destination and tourist satisfaction, and the quality of destination positively affected Islamic attribute of destination, but Islamic attribute of destination had no significant effect on tourist satisfaction. We also found that Islamic attribute of destination did not mediate the relation between quality of destination and tourist satisfaction. We provided recommendations to strengthen or improve the quality of destination in order to increase tourist satisfaction. '

I hope your favorable consideration in the publication procedure and deeply appreciate for

your kindness. Please make any further correspondence directly to me, preferably through this Email:

[ssumaryadi4@gmail.com](mailto:ssumaryadi4@gmail.com)

Sincerely yours,

\*\*\*\*\*Korean Researchers: If you have not submitted at least one manuscript to KODISA JOURNALS (KCI, etc.) before submitting it to JDS, the publication will be denied according to the publishing regulations. Please make sure to submit your manuscript to another KODISA academic journal in advance.\*\*\*\*\*

to me

Dear Author(s),

Thank you very much for submitting your research article to *Journal of Asian Finance, Economics and Business (JAFEB)*. We have read the paper and we found that the topic is very interesting. However, the editorial board does not believe that the current manuscript meets the standards and submission guidelines of the journal.

**Editorial Board's Selection and Revision Invitation Policy (Updated on October 2020):** All new submissions to the journal are assessed in **two stages**. The first hurdle is an editorial screening where we evaluate whether a paper is likely to get through the peer review process or not. If the Desk Editor finds that the submission is suitable for the aims and scope, standards, and Editorial Board's selection policy

of the journal then the Desk Editor invites to revise and restructure the manuscript (in a **combined file based on the journal template**) and resubmit a revised manuscript for further consideration of the Desk Editor. Please be noted that only about 20% of our submissions pass this hurdle.

**Congrats!** This revision opportunity is your case. **The submissions we decide to take forward for the peer review process need to be well structured, well written, good presentation of English, firmly anchored in existing academic literature, and complete compliance with the revision request and template.** Only after careful consideration by the Desk Editor based on the editorial grounds, the Desk Editor will selectively send the paper out to external peer reviewers.

**Article Publication Charge (APC):** **JAFEB is an Open Access** journal accessible for free on the Internet. Yet, the print and online publication process does involve costs including those pertaining to setup and maintenance of the publication infrastructure, routine operation of the journal, processing of manuscripts through peer-reviews, editing, publishing, maintaining the scholarly record, and archiving. To cover these costs, the journal depends on **APC also called “Article Publication Charge” (US dollar \$500 or Korean currency 600,000 Won) per article so that APC is mandatory.** There are NO submission charges for JAFEB whether the article is rejected, reviewed, or accepted. **[Important:** After the external reviews having completed if the paper gets accepted in favor of publication on the journal then an official invoice of APC will be followed. Based on the invoice the author should make a payment for APC. Before the paper gets accepted for publication, **any payments without an official invoice or early payments do NOT count any credits toward its acceptance for possible publication.**]

**Checklist of Manuscript and Submission (Very Important Items):** In particular, the following must be addressed and met the requirements and guidelines:

**1. JAFEB Engagement:** If the literature current, relevant, and broad enough to set the context for the research, you should engage with the style and the discussions published in JAFEB. The work in the journal evolved considerably as you can see on [JAFEB Archive](#). To fully contribute to the subject, you will need to engage with JAFEB. To do so: you should **include at least 3 - 5 relevant references in JAFEB.** Your paper should reflect the cutting edge thinking of relevant literature in JAFEB.

**2. Abstract:** Abstract must adhere to the following: A concise and factual abstract is required. **Please rewrite abstract** to reach **about 200 words** in total for this purpose **from current 133 words** in your case. The abstract should describe the following items in order of: **1) the purpose of the research (The study aims to investigate..., 2) data, materials, and methodology (This study employs samples/survey data/time series data of ....), 3) the results (The results show/reveal that .....), and 4) major findings (The findings of this study suggest that ..., in an unstructured manner.** An abstract is often presented separately from the article, so it must be able to stand alone.

**3. JEL Classification Code:** **Please provide 3- 5 JEL classification codes, separated by comma (,)**

**4. Tables and Figures:** JAFEB accepts Tables/Figures created by the author’s own work only. Number Tables/Figures consecutively in accordance with their appearance in the text. **Tables must be adjustable.** Avoid vertical rules. **Extremely large tables that take more than one page print are NOT acceptable.** Be sparing in the use of tables and ensure that the data presented in tables do not duplicate results described elsewhere in the article. A paper in JAFEB from now on may include **a maximum of six (6) tables/figures/appendixes in total.** In particular, JAFEB does not accept any figures/artworks borrowed from others (i.e. output of AMOS, charts and reports of Statistics Agency’s), if not created by

the author's own creative work. Please reduce a number of tables/figures/appendixes and resize/adjust the oversized tables to fit in a single page print, if any corrections required in your case.

**5. Citation and Reference Style Guides:** Authors are expected to adhere to the guidelines of **APA 6<sup>th</sup> or 7<sup>th</sup> edition (American Psychological Association)**. Please provide full information of publications complying with the APA citation and reference styles. **Please ensure that every reference cited in the text is also present in the reference list (and vice versa).**

**[Special Note:** (1) Please ensure that every reference cited in the text is also present in the reference list (and vice versa). For this purpose please best use **"Find"** function in MS-Word Documents.

(2) All citations in the text should refer to: **Two authors:** list all authors' surname (family name) only, using **"and"** between two authors and separating with parentheses for the year of publication, for example, **Lee and Nguyen (2020)** in the main text, or everything in parentheses using **"&"** and separating with a comma between the two authors and the year of publication (**Lee & Nguyen, 2020**).

**[Important!** Please translate all references in local languages, at least **the title of the article must be in English** (i.e. Vietnamese, Indonesian, Malay, Thai, Pakistani, Arabic, Russian, Ukrainian, Chinese) into English (through Google translator or AI translators) according to APA style guide at its best.]

**Journals:** Lee, J. W., & Nguyen, A. H. (2020). Citations and reference style guides of APA 6th edition and Asian names. *Journal of Asian Finance, Economics and Business*, 7(1), 2-

4. <https://doi.org/10.13106/jafeb.2020.vol7.no1.2>

**Book (ISBN):** Greenberg, P. (2001). *CRM at the Speed of Light* (5th ed.). Emeryville, CA: Lycos Press.

Please resubmit the following documents for further review consideration:

**1) a signed JAFEB(APC)-Submission-Consent-Form-20201225 (The form MUST be fully filled. see attached),**

**2) a signed JAFEB(APC)-Revision-Report-Form-20201225 (The form MUST be fully filled. see attached),**

**3) a revised manuscript in the attached JAFEB(APC)-Manuscript-Template-20201225 (The attached template MUST be STRICTLY followed) as soon as possible (within next 5 days), but not later than February 27, 2021 (Seoul, Korea) at the latest for possible publication in JAFEB Volume 8 Issue 4, April 30, 2021, directly to Editor-in-Chief Prof. Jung Wan LEE at Email: [jwlee119@Yahoo.com](mailto:jwlee119@Yahoo.com).**

Thank you for your interest in and support for success of the journal.

to me

Dear Author(s),

We hereby confirm that we have received a **signed JAFEB(APC)-Submission-Consent-Form**, a **signed JAFEB-Manuscript-Revision-Report-Form** and a **revised research article** titled "**The Relationship Between the Quality of Destination and Tourist Satisfaction: The Role of Destination Attributes**" to the [\*Journal of Asian Finance, Economics and Business \(JAFEB\)\*](#).

We have read the paper and we find that the topic is very interesting and the manuscript showcases commendable research integrity. We also find your article provides academic merit and meets the current editorial considerations and the aims and scope of the journal, JAFEB.

Your article will now go through our external review process and Editorial Executive Board's content selection process to determine if it is accepted in its current form or required further revisions in which case it will be subject to external expert reviews.

We expect to inform you the outcome of external reviews within **next 1 to 3 weeks**.

Thank you for supporting the journal.

Jung Wan LEE, Ph.D.

## Abstract

This present research seeks to explore the empirical evidence about the relation between quality of destination and Islamic attribute of destination on tourist satisfaction. This research was conducted at the tourism sector in West Java, Indonesia. The participants were Muslim foreign tourists who were traveling to West Java, Indonesia. The total number of participants in the research was 200. Data collection was carried out using a questionnaire. Hypotheses were tested using structural equation modeling methods with AMOS version 23. The exogenous variables in this research consisted of the quality of the destination and Islamic attribute of destination. Tourist satisfaction was an endogenous variable in this research. We used a quantitative approach and structural equation modeling to examine the research hypotheses. The results showed that there was a positive and significant effect of the quality of destination on the tourist satisfaction, and the quality of destination positively affected Islamic attribute of destination, but Islamic attribute of destination had no significant effect on tourist satisfaction. We also found that Islamic attribute of destination did not mediate the relation between quality of destination and tourist satisfaction. We provided recommendations to strengthen or improve the quality of destination in order to increase tourist satisfaction.

## Keywords

Quality of Destination; Attribute of Destination; Tourist Satisfaction; Halal Tourism

## 1. Introduction

The rapid growth of global Muslim travelers is driving tourist destinations to improve their quality to meet the needs of Muslim tourists. A Muslim tourist has the creed and norm that always underlies every tourist activity (Battour & Ismail, 2016; Din, 1989). Tourist satisfaction criteria become higher and more specific in line with the experience of traveling (Uriely, 2005), the satisfaction of tourists in a destination in the future will be more difficult (Lee & Chuang, 2010).
